

Wood River Water Meeting

11:00 – 11:15 Brief Introductions

11:15 – 11:30 Overview and examples of water agreements in practice

11:30 – 12:00 Review and discuss WRWE briefing paper:

- Discuss challenges facing our water use from all perspectives.
- Identify what the main drivers are for change of our current water use i.e. consumptive management, changing weather patterns, etc.
- Discussion of how we can bring the water user community together around a solution.

12:00 – 12:30 Next steps for moving forward and what is needed.
